mouse
9

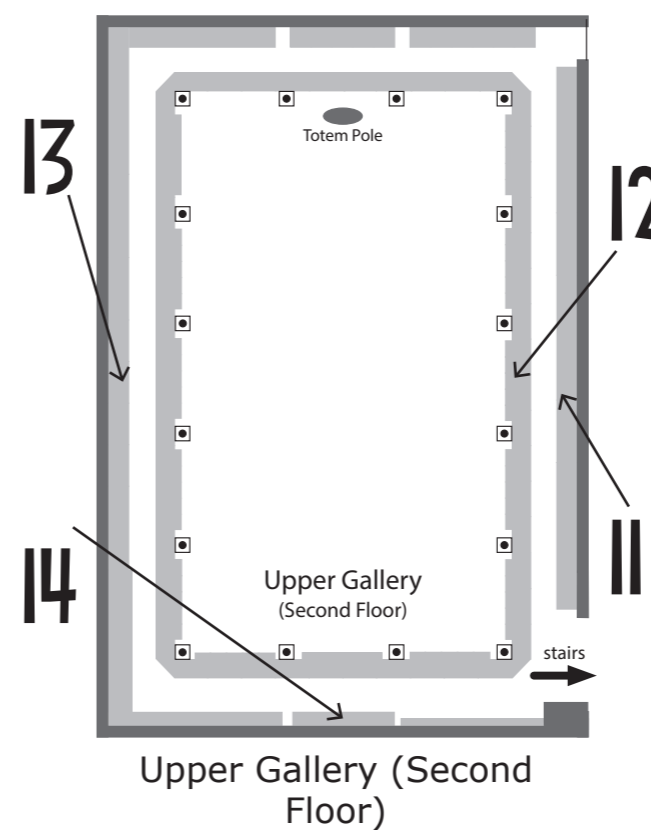

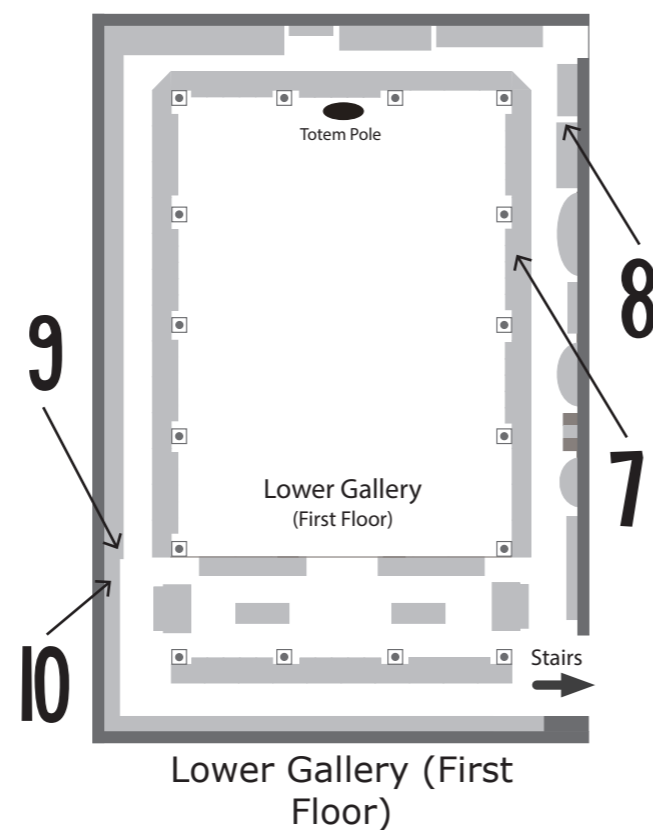

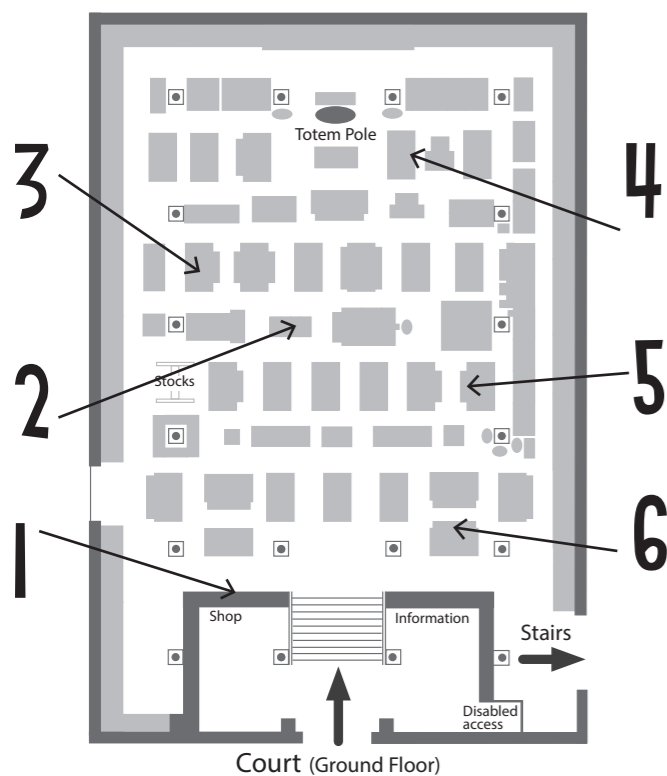

Look in the mirror for this one.

mouse
8

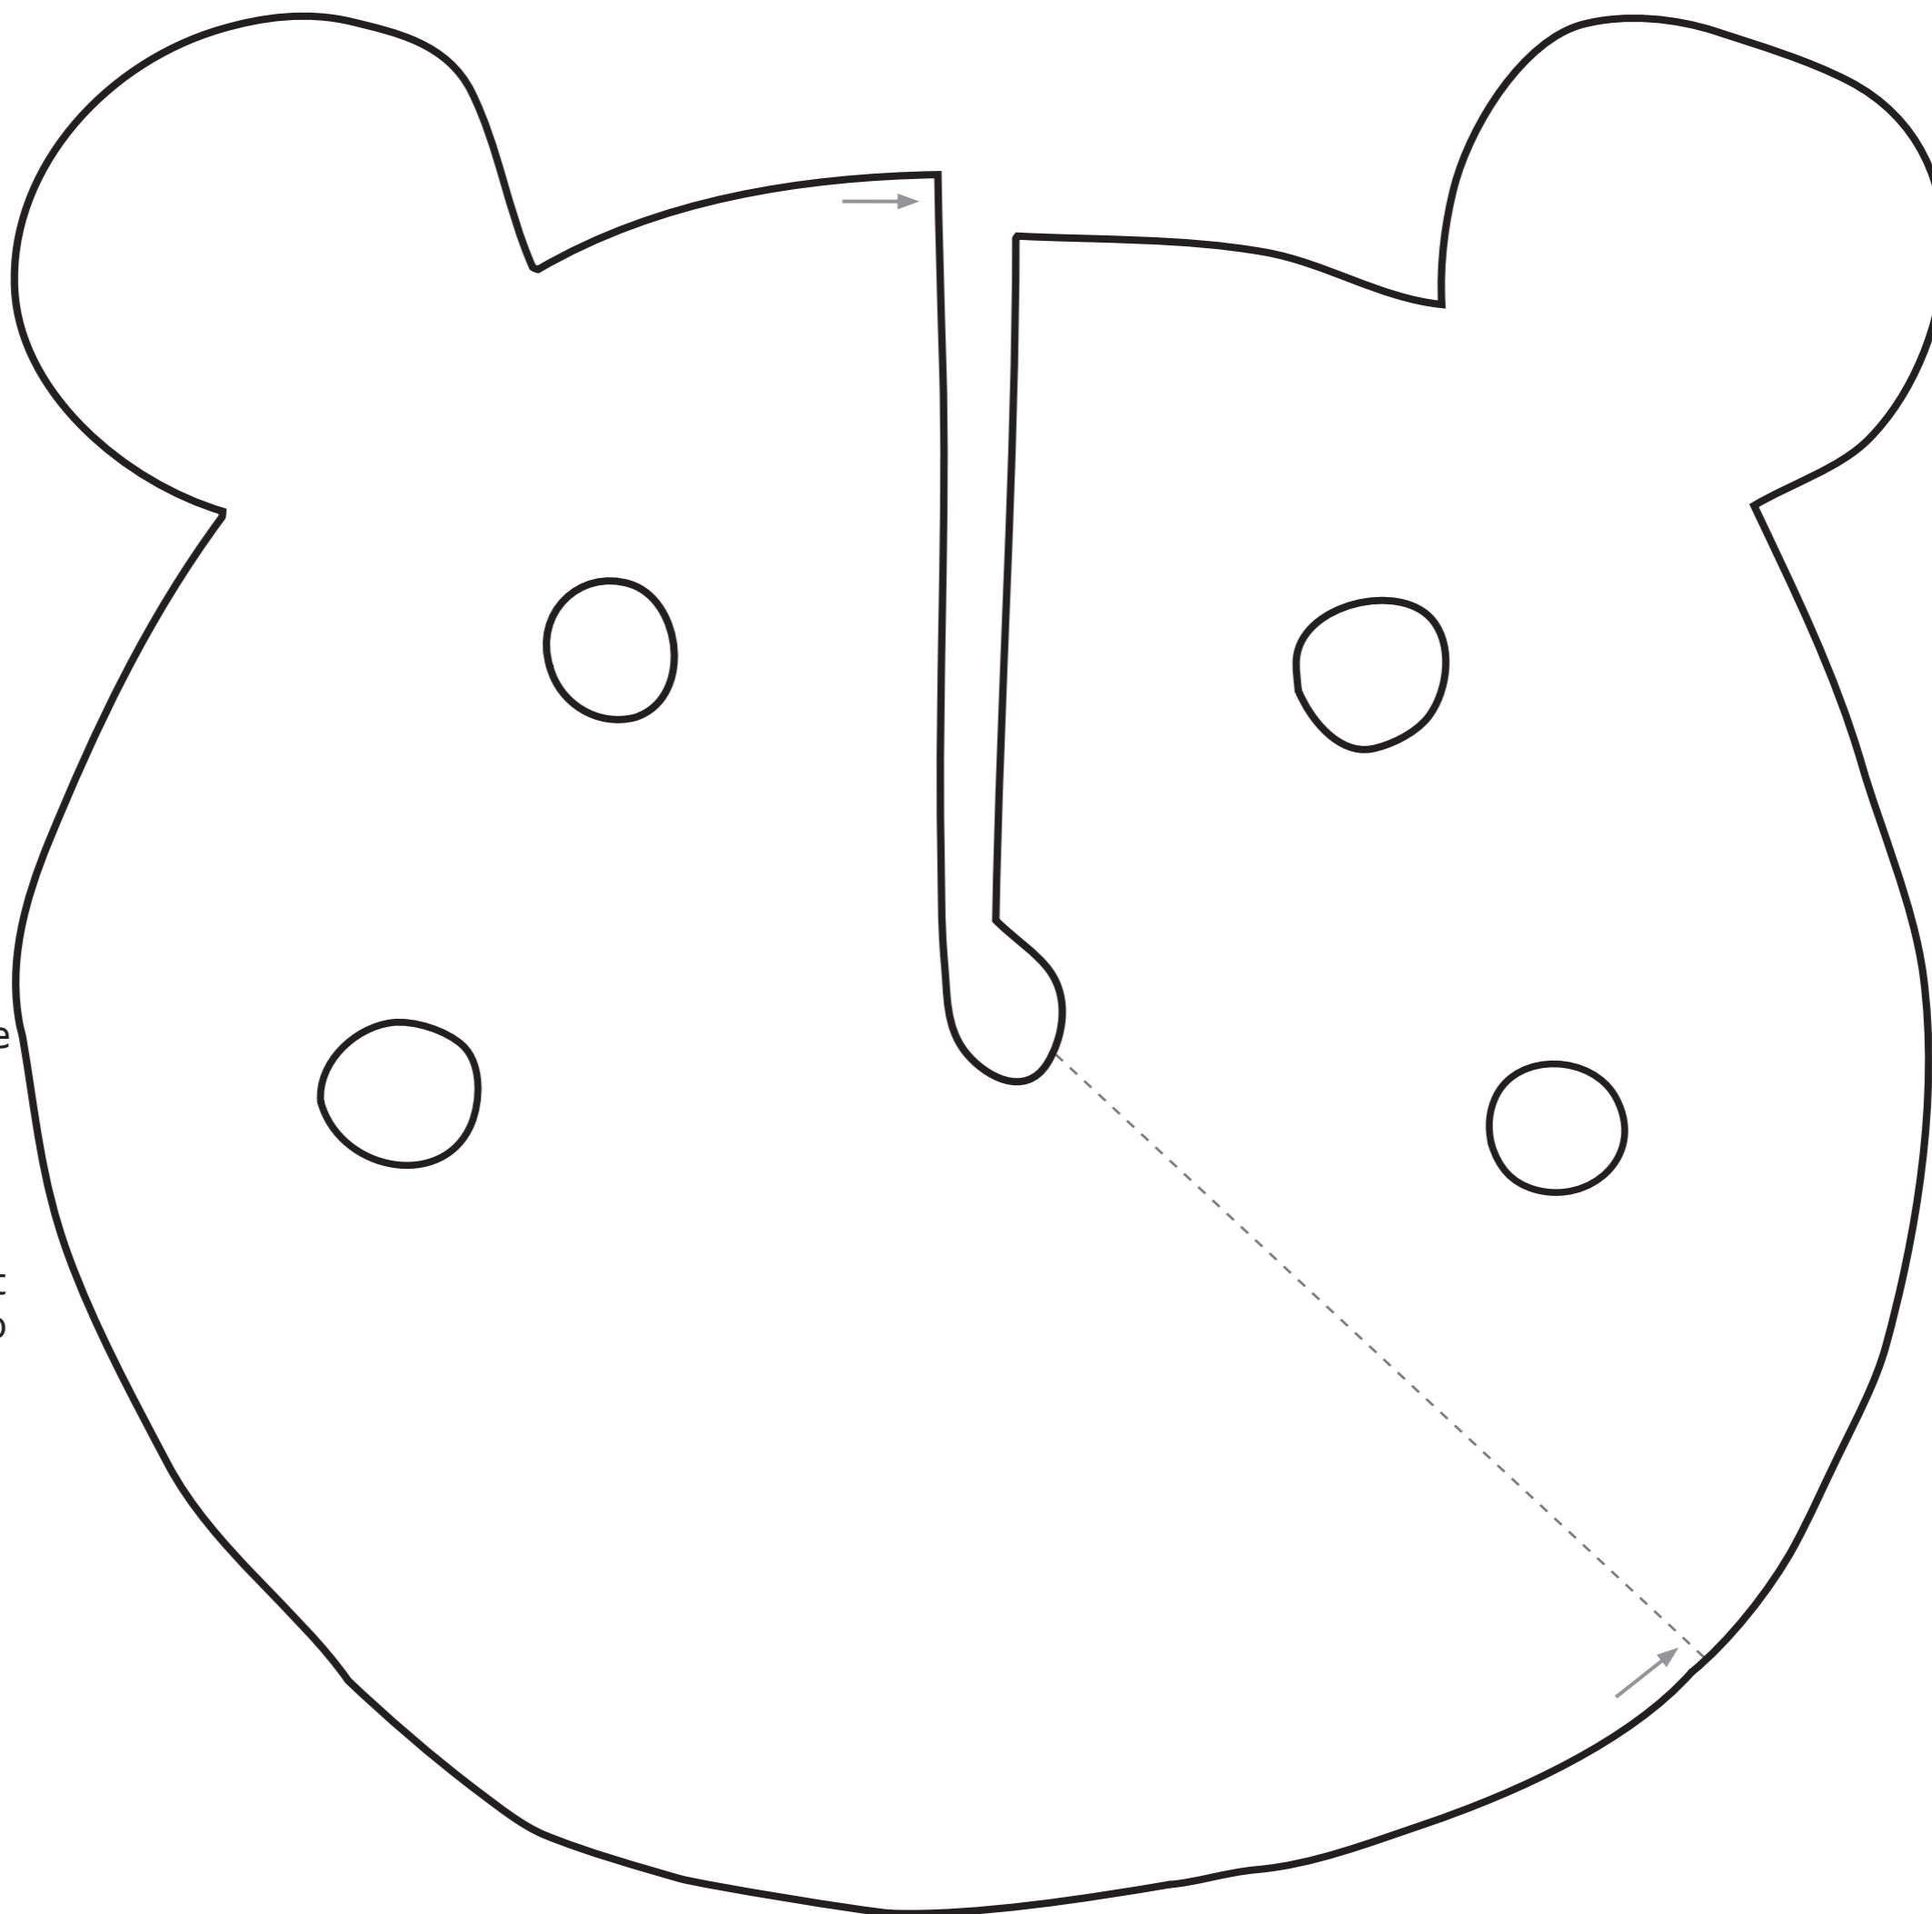

This mouse is nibbling some cheese!

Successful museum mouse collectors can pick up a sticker from the Information point or ask a Gallery Attendant.

the Pitt Rivers Museum mouse mask

To make your mask:

The mask will be nice and strong if you trace or photocopy this template onto card. It will be fine on paper, just not quite as robust.

You will need:

- scissors
- colouring pencils or crayons
- stapler
- elastic
- bits to decorate
- something to make whiskers

Instructions:

1. Cut out the mask shape along the black lines.
2. Cut out the eye holes. (All 4 of them!)
3. Slide the left side of the mask over the right hand side, until the two arrows line up.
4. Now you can see how the mask makes a mouse's face...
5. Colour in and decorate the face.
6. Staple the mask together, add some whiskers and some elastic to keep it on.
7. Wear your mouse mask!
