3. BIRDS' NESTS

Find the two cases with brightly coloured birds.

Can you see the birds' nests?

Different kinds of birds can make different kinds of nests.

Can you find? ✓

A nest made from mud

A nest made from saliva (spit!)

4. PLATYPUS

Look in the Mammals of Australia case.

Did you know, a rare group of mammals, including the platypus, can lay eggs?

Can you draw the funny-looking platypus?

5. ELEPHANT BIRD EGG

Can you find the biggest egg in the Museum? It was laid by the elephant bird. This giant flightless bird lived in Madagascar and became extinct over 300 years ago.

Read the label in front.

How many chicken eggs can fit inside one elephant bird egg?

6. DINOSAUR EGGS

Can you spot four dinosaur eggs on the touch table? It is likely that they were laid by a long-necked plant eating dinosaur.

Where were these eggs discovered?

Clue: Look at the label in front.

Eggstra Egg Challenge!

The Easter Bunny has hidden an Easter egg in the Museum. Can you find it in one of the cases? It's being guarded by a fierce dinosaur with very sharp teeth!
